

LEVENSEAT PROPITCH 25™

A medium fine washed silica sand.

Levenseat ProPitch 25 specialist silica sand is extremely popular for use as a medium fine moist top dressing, rootzone sand or where pitch amelioration is required. Levenseat's unique production process ensures that ProPitch 25 has a high performing percolation rate which will improve any area where drainage is an issue.

Our most popular medium fine sand already has a proven track record supplying various sporting locations including the National Stadiums for rugby and football and the Glasgow Commonwealth Games.

Levenseat specialist sands are tried and tested with market-leading quality, consistency across a complete range of products and applications.

APPLICATIONS

- ▶ Top dressing/amelioration sand/rootzone sand

SECTORS

- ▶ Sports and leisure

AVAILABLE IN

- ▶ Loose: bulk tippers
- ▶ Bulk bags (tote)

SPECIFICATION

SIEVE SIZE (mm)	TYPICAL GRADING % RETAINED	DESCRIPTION
2 to 5	0	Fine gravel
1 to 2	0.8	Very coarse sand
0.5 to 1	16.5	Coarse sand
0.25 to 0.5	51.2	Medium sand
0.15 to 0.25	31.5	Fine sand
0.05 to 0.15	0.7	Very fine sand
<0.05	0.3	Silt plus clay

Saturated hydraulic conductivity	1041.0mm/hr*
Specific gravity	2.69 Mg/m ³
Uncompacted bulk density	1.49 t/m ³
Nominal effective size	0.16-0.38mm
Uniformity coefficient	<2.3mm

*tested at 30cm tension

- ▶ **Source:** Levenseat Quarry, West Lothian
- ▶ **Geology:** Carboniferous sandstone
- ▶ **Composition:** Quartz
- ▶ **Grain shape:** Sub angular
- ▶ **Sphericity:** Medium

NOTE: Gradation figures stated are indicative value, for specific grading values please contact Aggregate Industries Technical Department. Sand is a naturally occurring product, therefore colour may vary.

SUSTAINABILITY & LOCAL SOURCING

ENERGY USE AND GREENHOUSE GAS EMISSIONS:

Aggregate Industries is at the forefront of sustainability and has committed to reducing both energy and greenhouse gas intensity 5% year-on-year.

RECYCLABLE

100% of the product can be recycled thus reducing the amount of material that is sent to landfill.

MANUFACTURING LOCATION: Produced in the UK, with locally sourced materials under strict environmental and social legislation, for local supply.

CIRCULAR ECONOMY: We will maximise reuse and recycle, with zero waste to landfill. We improve resource efficiency through reuse, recovery and/or recycling of waste materials in our production processes. Plus, we minimise the generation of both hazardous and non-hazardous waste.

RESPONSIBLE SOURCING: Aggregate Industries is the first company in the world to achieve accreditation to the BES 6001 Framework Standard for the Responsible Sourcing of Construction Products.

Aggregate Industries has achieved a 'Very Good' rating for major product groups. The BES 6001 standard assesses:

- ▶ Quality Management
- ▶ Environmental Management
- ▶ Health and Safety Management
- ▶ Greenhouse Gas Emissions
- ▶ Minimising Raw Material Usage
- ▶ Labour Practice
- ▶ Biodiversity
- ▶ Community Engagement

MANUFACTURING STANDARD

All aggregate Industries products are manufactured in accordance with ISO 9001 with factory compliance to ISO 14001.

POLICIES

Aggregate Industries' policies on the environment and community, health and safety and sustainable solutions for different product applications can be viewed on our website www.aggregate.com.
