Hard wearing, with a range of colours and hues only seen in Italian porphyry, our range of small paving and setts have been used successfully throughout Europe for centuries.

FEATURES

- ▶ Quarried and manufactured in Northern Italy
- ▶ Hard wearing, frost resistant and durable
- ▶ Suitable for both pedestrian and trafficked areas
- ▶ Excellent skid and slip resistance performance
- ▶ Meets relevant BS/EN standards
- ▶ Paving and setts supplied with a natural split top, bottom and cropped sides
- ▶ Sawn sides available in some sizes

APPLICATIONS

Natural Porphyry is suitable for both pedestrian and trafficked areas, depending upon the thickness and the stone type used. Further guidance and advice on suitability of use is available from our technical department.

MANUFACTURING STANDARD

Natural Sandstone flag paving products comply with the performance levels in European Standards BS EN 1341: slabs and 1342 setts of natural stone for external paving - requirements and test methods.

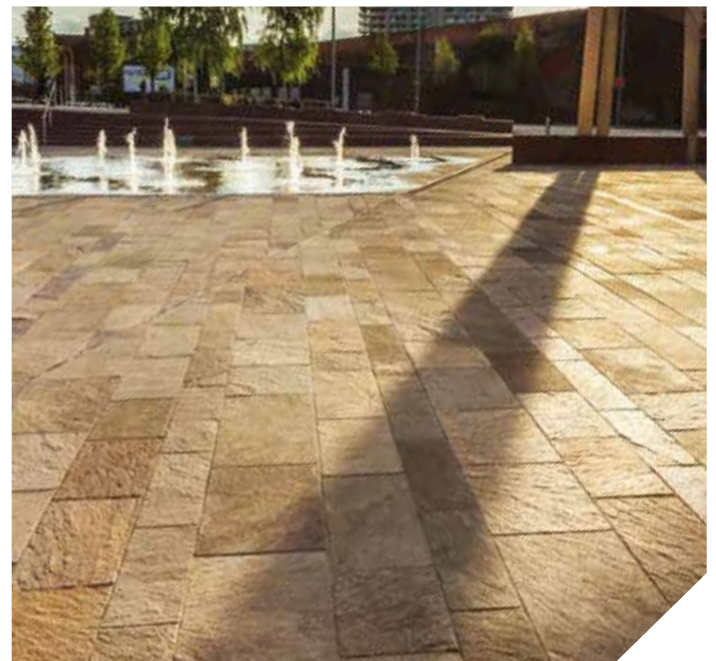

PERFORMANCE

STRENGTH: The strength requirements are met to the manufacturing standard.

SLIP AND SKID RESISTANCE: Dependant on texture chosen. Refer to our technical department for further details.

COMPLIMENTARY PRODUCTS

Kerbs, steps and other specials can be made to order.

SWATCHES
