

YORKSTONE

FLAG PAVING AND SETTS

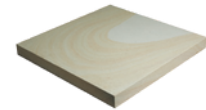

Charcon Hunters Hill is a UK sourced Yorkstone offering exceptional performance allowing designers to incorporate the stone in a wide variety of applications. Predominantly blue/grey with occasional varied black swirls and buff/brown markings, the stone is well compacted, hard, fine grained cross bedded of the carboniferous age.

- ▶ All products are quarried and manufactured in the UK.
- ▶ Excellent durability and exceptional resistance to wear.
- ▶ Suitable for both pedestrian and trafficked areas.
- ▶ Excellent skid and slip resistance properties, even when wet, for the whole life of the product.
- ▶ Fully compliant with BS EN standards.
- ▶ Paving available in a diamond sawn finish.
- ▶ Setts available in diamond sawn and tumbled finishes.
- ▶ Full range of matching accessories including tactile paving, kerbs, steps, benches and other bespoke items available.

MANUFACTURING STANDARDS

All products comply with the relevant British and European standards BS EN1341, BS EN1342 and BS EN1343.

APPLICATIONS

Natural Yorkstone is suitable for both pedestrian and trafficked areas, depending upon the thickness and the stone type used. Further guidance and advice on suitability of use is available from our technical department.

COMPLEMENTARY PRODUCTS AND SPECIALS

A full range of setts, kerbs, steps and radial paving are available. Special features, such as benches, seats and matching street furniture can be made to order.

OTHER STONES

Charcon can source other stones in a wide variety of shades and finishes to match or contrast local material colours and textures.

SUSTAINABILITY AND LOCAL SOURCING

ENERGY USE AND GREENHOUSE GAS EMISSIONS:

Aggregate Industries is at the forefront of sustainability and has committed to reducing both energy and greenhouse gas intensity 5% year-on-year.

RECYCLABLE: This natural stone product is 100% recyclable, reducing the amount of material sent to landfill after use.

MANUFACTURING LOCATION: Produced and sourced in the UK under relevant environmental and social legislation.

RESPONSIBLE SOURCING: Aggregate Industries is the first company in the world to achieve accreditation to the BES 6001 Framework Standard for the Responsible Sourcing of Construction Products. Aggregate Industries has achieved a 'Very Good' rating for major product groups.

The BES 6001 standard assesses:

- ▶ Quality management
- ▶ Environmental management
- ▶ Health and Safety management
- ▶ A range of social and environmental issues

KEY AGGREGATE AND RECYCLED CONTENT

Natural Yorkstone flag paving and setts are a naturally occurring sandstone product manufactured and sourced from within the UK.

POLICIES

Aggregate Industries' policies on the environment and community, health and safety and sustainable solutions for different product applications can be viewed on our website www.aggregate.com

INSTALLATION STANDARD

Install in accordance with the relevant section of BS 7533. Charcon normally recommend that a fully rigid construction method is used for natural stone paving flags and setts. For specific guidance please contact our technical team at Charcon.technical@aggregate.com

MAINTENANCE AND CLEANING

Charcon can supply on request advice on specific stain removal and general maintenance, suitable cleaning products and referrals to specialist cleaning companies.
