

GAME ON WITH SUPERSPORT® ASPHALT

SPECIALLY DESIGNED ASPHALT FOR SPORTS AND GAMES AREAS

SUPERSPORT® IS AVAILABLE IN TWO OPTIONS:

Supersport Tennis - a fast draining material that is fully compliant with the requirements of the Lawn Association (LTA) and SAPCA. Available with our 'Plus' binder that allows for increased workability.

SUPERSPORT MUGA - the ideal product for Multi Use Games Areas where a variety of activities including basketball, hockey, football and netball are played. Available with the 'Plus' binder for increased workability if required. It is fully compliant with the requirements of SAPCA.

For more information, contact your local asphalt team or visit: <https://www.aggregate.com/supersport>

WHY CHOOSE SUPERSPORT?

POROUS - SuperSport is free-draining, ensuring no standing water remains on the surface, allowing play shortly after heavy rainfall.

LONG-LASTING - SuperSport Plus is designed utilising bitumen modifiers, which offer increased resistance to scuffing reducing the potential for softening in extreme temperatures, giving you a tough and durable playing surface.

DURABLE - SuperSport can be used as part of a SuDS system. Its high permeability and drainage capacity reduces the risk of standing water, making it ideal for projects with a high proportion of hard standing.

VERSATILE - The finished surface can be coloured and playing areas marked up in a range of colourways.

QUALITY ASSURED - Fully compliant with requirements of Lawn Tennis Association and SAPCA
